WEDNESDAY, MAY 17th, 1922.

No. 20

Frs. Radio Exhibition In Didsbury

Tuesday evening several of the staff of the Calgary Herald including Mr. O. L. Spencer and Mr. Hayden motored up from Calgary with the Herald receiving Radiophone set with the intention of trying it out. In some manner the information got around that there was to be a free Radio concert and when the men arrived there was a large crowd fast gathering. A small aerial was set up behind the hotel and a wire run in to the receiving set on the platform in the Opera House. When it was all set Mayor Chambers arose and introduced the visitors. Mr. Carleton who was in charge of the set also got up and after explaining to the audience that this was merely an experiment and that

they had no intention of giving a concert, proceeded to give a very interesting ten minute speech on Radiophone parts.

At 8:30 after sundry sounds were emitted from the horn of the set, amidst a deep hush could be heard the strains of Hawaiian music which had been floated through the ether from the tenth floor of the Herald Bldg. Calgary, where a gramophone and local talent were giving several selections. The music though rather faint was quite clear. A man speaking could not be heard with the same clearness.

The Herald representatives were sorry that it had been reported that their experiment was to be a concert but promised that in the near future they would with more improved apparatus and a larger aerial come up here and put on a real concert of which due notice would be given.

Grasshopper Eggs Very Numerous Postmaster Hunsperger Resigns Position

No false security should be felt by the farmers that the wet weather will result in killing off the hoppers. E. H. Strickland, who is in charge of the field work for the Department in the campaign against the grasshopper, states that contrary to the

common impression, this season has been about the worst possible for hatching of hoppers.

The wet weather has delayed the hatching of eggs until now there is no possibility of a late spring frost killing off the hoppers after the warm weather has hatched them. Had warm weather come early, the eggs would have hatched out, and a late frost would have killed many of them. This possibility has passed now, so that the warm weather now coming will hatch the hoppers out in greater numbers than ever. For this reason farmers should be on the alert more than ever for them.

Farmers and municipalities are entering heartily into the work of organizing to combat the pest. Last week the Reeves of all the Municipalities included in grasshopper district No. 21 held a meeting at Stettler to complete plans for organization. This is the first meeting of Reeves for this purpose and it is likely to be followed by similar meetings in other districts. The Department emphasized the point that there cannot be any laxity in the watch for the appearance of the hoppers, and urges upon all, the need of the utmost co-operation in every way to combat the pest. In one section of Alberta, where organized effort has been carried on for the past two or three years hopper eggs have been found to the extent of 5000 per square foot this year, compared with about 2000 in previous years which gives some idea of how the pest is likely to develop this year.

After serving the public of Didsbury since 1913, nine years, Mr. William Hunsperger has resigned his position as postmaster for Didsbury and with Mrs. Hunsperger will leave for the Coast shortly on a much needed holiday.

It is rumored that there are several applicants for the job but the logical preference and the most popular is that of Capt. Morgan, who has held the position of assistant postmaster for some months, and should receive the office. He has had a great many years experience in post office work, is a returned soldier, and has proven himself a painstaking and courteous

official and has become popular since taking over this position.

The many friends of Mr. Hunsperger regret to see him give up the position as postmaster as he has at all times filled this position to the great satisfaction of the general public. However, he feels that the burden is too much for him to carry any longer.

Mr. and Mrs. Hunsperger, who are real old timers in the district, having been here about 28 years, have the respect and esteem of the whole community who will wish them a pleasant holiday and hope to see them return to us again to make their home here.

According to reports the Niagara fruit crop will break all records if favorable weather conditions prevail.

Look for this Trade Mark
when You Buy Kitchen Utensils

Would you buy a can of salmon if it had no label? Or a bag of flour? No, certainly not! Then be just as careful when you are buying kitchen utensils. Purchase only those articles of Enamelled Ware carrying the SMP trademark. It is your safeguard and your guarantee of quality. Ask for

SMP Diamond or Pearl WARE

Diamond Ware is a three-coated enamel steel, sky blue and white outside with a snowy white lining. Pearl Ware is a two-coated enamelled steel, pearl grey and white inside and out.

A Gratifying Change

There has in times past been so much bitterness in Canada's party politics, and such a pronounced tendency for the leaders of one political party to refuse to see anything good in the policies and actions of the opposing party, that it is not only gratifying, but decidedly encouraging to note the change for the better which has taken place in recent years, and which is becoming more pronounced.

A pleasing manifestation of this was given a few days ago when, addressed to the Minister of Agriculture, Mr. H. H. Stevens, who was a minister in the MacKenzie Government, Frankly stated that he believed the King Government was honestly desirous of helping the farmers of Canada in their present difficulties and was earnestly seeking a way whereby practical assistance could be rendered the agricultural industry.

A newspaper described recently the proceedings of the Parliamentary Committee on Agriculture, the members in giving consideration to this large and vitally important subject, are not trying to make party capital on themselves, and to place their political opinions. In the full light, but not smirking, striving to evolve a policy which was an amiable mixture of party and national, and to lay the removal of present difficulties imposed on agriculture, and give in the producer of grain a reasonable guarantee that he will receive the largest possible financial return from his labor.

But from the purely Western and the large national standpoint the attitude of the leading dairy and tobacco agriculturists is most encouraging, and holds promise that the same patriotic and business-like views will prevail when Parliament is called upon to deal with other great national questions in the wise solution of which is bound up the welfare and prosperity of the people of Canada.

And why should the bigger better, national viewpoint not prevail in our national Parliament. Considered in the mass, the Canadian people, while interested as all people living under a democratic form of government must be interested in the organization and policies of political parties, are not rapidly polarized and more concerned in the fortunes of a political party than in the good government of the country and the wise administration of that party's affairs.

There was a time when it seemed to be the accepted view that when one party announced its policy on a given question, whether that party be in office or in opposition, there was only one thing for the other party to do, and that was to accept it, and to do its best to implement it. For a long time for Canada that time now seems to have passed, and today political leaders are becoming more and more willing to acknowledge the good features of their opponent's policy and to show a readiness to cooperate in still furthering the welfare of the people.

In these different and trying times through which the whole world is passing, it is not partition, unscrupulous government that Canada requires, but patriotic, constructive cooperation by all members of Ottawa, regardless of the party with which they are aligned, with the common object of giving the best possible service to the administration. Let there be no question, negotiation and criticism and even opposition when it is called for in the public interest, but the main guiding motive of Liberals, Conservatives, Progressives and others need to be the advancement of Canada's business welfare and the development of national policies with a view to the happiness of the Canadian people and the enhancement of the prosperity of the country at large.

Feed the body well

Right food for the body is more important than right fuel for the engine.

Grape-Nuts

is a scientific food, containing all the nutriment of wheat and malted barley. Grape-Nuts digests easily and quickly, builds toward health and strength — and is delightful in flavor and crispness.

"There's a Reason for Grape-Nuts"

Young Scientists Needed

Pulp Industry Requires Trained Men to Solve Problems

Here are the first of the problems faced by the men in the paper and pulp industry in Canada.

They have heavy losses every year as a result of the decay of wood in storage. Also some mills now have to haul their logs long distances.

Also, and this fact is not generally known, the pulping processes have been only slightly improved in the last fifty years.

The value of the industry will be increased at least 25 per cent, when all these problems are solved, but a great deal more intensive scientific investigation is necessary in connection with each one of them.

An effort to supply the deficiency in trained men is being made by the Council for Scientific and Industrial Research of Ottawa. Arrangements have been made to award 7 Fellowships, 9 Studentships and 29 Bursaries among men who are taking scientific courses, and it is hoped that among them may be found suitable scientists who will devote themselves to the solution of the problems of the pulp and paper industry among others.

HIS NERVES NOW

STRONG AS EVER

How An Ontario Teacher Regained Good Health

"I am a good man by profession," says Mr. James R. Thompson, R.R. No. 1, Centralia, Ont., "yet when I started school teaching I was in very poor health. I suffered a nervous breakdown, brought on by overwork and no relaxation. I was unable to think, or eat, or even to eat properly. Once in a while I privately said to myself, 'I must get up and down my back, my arms and my legs; like so many needles, seeming at times to fairly paralyze me, and often my heart was thumping like a trap-door. I consulted a number of our family doctor, and he immediately put me under orders. I had to give up my school and return home in order to get well again. I had to drink quarts of milk; yet, though it helped me, it did not build me up to my normal condition. A walking system was called for, better blood. One day, when I picked up a newspaper, I came across an advertisement of Dr. William Pink's Pink Pills. I was greatly surprised to find it in my case—so rich, red blood. I immediately sent for a box, and when the doctor visited me, Dr. William Pink, he had me take the Pink Pills. I got back my strength and was soon able to walk without strain. For the next few weeks I continued to take the pills and the doctor working wonders with me. My head was becoming clearer, my memory better, and my nerves were becoming steadier. I began to go out frequently, visiting friends. My health was improved and was even better than before I had my breakdown. I was my self again. I got back my self-confidence. I have had no return of this trouble, and now when anyone comes to me with nervous trouble, I instantly suggest Dr. William Pink Pills as a remedy, as I believe that they will do in my case they will do for others."

Dr. William's Pink Pills can be obtained in my dealer in medicine, or by mail in boxes of 100, 200, 300, 400, 500, 600, 700, 800, 900, 1000, 1200, 1400, 1600, 1800, 2000, 2200, 2400, 2600, 2800, 3000, 3200, 3400, 3600, 3800, 4000, 4200, 4400, 4600, 4800, 5000, 5200, 5400, 5600, 5800, 6000, 6200, 6400, 6600, 6800, 7000, 7200, 7400, 7600, 7800, 8000, 8200, 8400, 8600, 8800, 9000, 9200, 9400, 9600, Soviet Not Pleased With The Project For Russian Reconstruction

Genoa.—The Soviet representatives are not delighted with the project or the powers for the reconstruction of Russia. Such is the brief summary emanating from Soviet sources of the Bolshevik view of the memorandum on which Uncle Sam's statesmen have worked so laboriously.

The fact that the document does not mention recognition of the Soviet Government and ignores the suggestion of governmental loans is said to displease the Communist leaders, who are now controlling in Moscow.

Belgium has not signed the memorandum, and word was received here that France had determined to stand by Belgium.

The financial code at Genoa has been written, declared Sir James Watkinson, chairman of the Financial Commission, and he believed it would prove as important as the historic Justinian code, the basis of world jurisprudence.

The essential points are limitation of the issue of paper money, bank parity with gold, economizing the use of gold and coordination of gold. The United States, said the chairman, with about half the world's gold, could join in the future study of the problems without involving itself in political difficulties and could help Europe as well as herself.

The financial report, like the memorandum of the powers to the Russians, emphasizes that assistance to disorganized countries should take the form of private, not governmental, credits.

Radio Supplements Telephone

Manitoba Will Enter Radio Broadcasting on Business Basis

Winnipeg.—The Manitoba Government telephones system will enter the radio broadcasting business on a commercial basis shortly, John Lowry, telephone commissioner, has announced.

Legislative control of operation of amateur wireless and radio machines will be sought at the next session of the legislature, Mr. Lowry said. The P.D.T. department had under consideration placing a wireless link in the long distance telephone system between The Pas and Swan River, but owing to lack of secrecy it will not be feasible to erect such a wireless connecting link until legislative enactments are passed governing the control of amateur wireless plants so that messages passing between Swan River and The Pas could not be picked up. Utmost secrecy is necessary on the line owing to the important mining messages which would pass over the line, Mr. Lowry said.

SUCH PAINS AS THIS WOMAN HAD

Two Months Could Not Turn in Bed. Lydia E. Pinkham's Vegetable Compound Finally Restored Health

Seattle, Washington.—"I had dragging pains here and could not stand on my feet, then I had chills and fever and such pains in my head that I could not sleep at night. I had a hard lump here, I could not turn myself in bed at night, I could not sleep. This was the case for two months, trying everything to get well. The physician brought me a bottle of Lydia E. Pinkham's Vegetable Compound. I took it right away and all the hard pains had left me. Now I was able to be up and to do my work again. The hard lump left my side and I feel splendid in all ways." Lydia E. Pinkham's Vegetable Compound, Mrs. G. Richardson, 4649 Orcas St., Seattle, Washington.

This is another case where Lydia E. Pinkham's Vegetable Compound brought results after trying everything any one told me had failed.

If you are suffering from pain, nervousness and are always tired; if you are not getting the rest you need take Lydia E. Pinkham's Vegetable Compound. You may not only relieve the present distress, but prevent the development of more serious trouble.

Valuable Ore Discovered

High Percentage Shown by Samples Taken Near Lethbridge

Lethbridge.—Gold and platinum bearing ore, showing a high percentage, have been taken from the West Butte Sweet Grass Hills, southeast of this city, and following closely on the assay reports from Montreal, negotiations were opened with old country capital to interest them in developing the property. Three lots of sample sent to Montreal, show: Class 1, gold, \$200 per ton; class 2, gold, \$250 per ton; class 3, gold, \$180 per ton. Platinum averaged one and one-half per cent.

ACIDS IN STOMACH CAUSE INDIGESTION

Creates Gas, Sourness and Pain How to Treat

Medical authorities state that the best remedy for the removal of stomach acids, burping, nausea, etc., are due to an excess of hydrochloric acid in the stomach and not as some believe to the presence of a too large quantity of bicarbonate. Stomach lining is irritated, digestion is delayed and food soured, causing the disagreeable symptoms which every stomach sufferer knows so well.

Artificial digestives are not needed in such cases and may do harm, but instead of getting out a digestive a few ounces of bisulphite of magnesia and take a teaspoonful a quarter glass of water half an hour after eating. This removes the stomach acids and the formation of excess acid and there is no sourness, gas or pain.

Bisulphite of magnesia in powder or tablet form never fails to give relief. It is the most efficient form of magnesia for stomach purposes.

Take the stomach acid away.

After Ten Long

Years of Suffering

HE SINGS THE PRAISES OF DODD'S KIDNEY PILLS

Jules Labrousse, who had Bright's Disease, Gravel, Drapery and Diabetes, Tells of Benefit he got from Dodd's Kidney Pills.

Parapluie, Lethbridge, Co., Quebec.—After suffering for ten years from various forms of kidney disease which included Bright's disease, gravel, dropsy and diabetes, Jules Labrousse, a Frenchman resident here, is now so far recovered that he is singing the praises of Dodd's Kidney Pills.

Mr. Labrousse's kidneys have recovered an immense benefit for which we are happy," Mr. Labrousse says in telling his story. "I suffered for ten years and am now very well. I weigh 160 lbs. now.

Dodd's Kidney Pills have surely a kidney remedy. Healthy kidneys are an important part of the blood.

Asking your neighbor if Dodd's Kidney Pills do not make healthy kidneys.

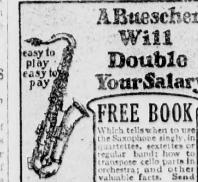

May Use Fast Time

Ottawa.—Postmen are allowed to follow daylight saving time in opening and closing post offices wherever it is in use, the post office department announced.

Canadian Representative For Washington Is Now Being Considered

Ottawa.—Appointment of a Canadian representative at Washington is now receiving consideration at the hands of the Dominion Government. Hon. W. L. Mackenzie King, Prime Minister, was in the House of Commons. The Prime Minister's statement was made in reply to urgent pleas by E. M. MacDonald (Liberal, Peterborough, N.S.) that a Canadian minister should be appointed to Washington.

Secretary of State for External Affairs, and replies thereto from the United States.

The case at issue, Mr. MacDonald said, was that of a Nova Scotian vessel sunk by an American vessel off Rhode Island. The fault lay with the American vessel, but the Canadian owners, under United States law, could not sue through the courts. They had to act through the secretary for external affairs.

"There should be a more direct method of communication between Canada and the United States than the present one of going through the British embassy at Washington," Mr. MacDonald declared.

The War in China

Heavy Fighting at Close Range is Reported

Peking.—General Wu Pei Fu, commander of the Ch'li Li forces, was reported to have arrived near Machung, on the railroad south of Tien Tsin, to take personal command of the operations against the troops of Chang Tso-Lin on that section of the battle front.

Late reports are to the effect that

Chang Tso-Lin is heavily reinforcing his troops in the region where all

arms and artilleries are at

Machung, and will meet the center of intense fighting. Artillery duels al-

ready have commenced over a wide

front. General Wu, if he actually

comes to command there, will have facing

him the 25-year-old son of Chang Tso-

Lin.

The heavy bombardment that has been in progress at various points has depleted the stores of big gun ammunition and the fighting is now mainly with machine guns and rifles. At some places there has been a

halt in the battle.

In the middle of the front, troops of Chang Tso-Lin have repulsed Kuan. Wounded men from that region say the fighting was heavy during the past few days, often at close quarters. The tide of battle was continually changing until the arrival of Chang's reinforcements turned the scales.

Quebec—Rumors are current here that the provincial general elections will take place in June.

Fulness After Eating

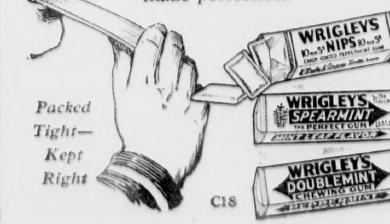

If you feel fulness after meals, a bad taste in your mouth in the morning, fur on the tongue, flatulence, etc., take Mother Buel's Syrup. It will clean your tongue, renew your appetite, give you relish for food and the power to digest it thoroughly and easily. Sold in 50c. and \$1.00 bottles at drug stores.

Juicy Fruit, Peppermint and Spearmint certainly make three delightful flavors to choose from.

And the new NIPS—the candy-coated peppermint gum, is also a great treat for your sweet tooth.

All from the Wrigley factories where practice has made perfection.

Wrigley's NIPS

Mrs. Carleton,

CARD OF THANKS

The Women's Guild of the Church of England sincerely thank all those who contributed toward the success of their bazaar on Saturday.

FLOODS IN MANITOBA STILL ON RAMPAGE

After covering thousands of acres of wheat and doing a lot of damage otherwise on the north side of the river, the Assiniboine has now broken through the south side and the situation between the two rivers is considered extremely grave.

WINNIPEG, May 16.—With an eight foot rise in the Red river at Emerson and flood waters of the Assiniboine starting to pour into the Red the low-lying districts in the city of Winnipeg are in great danger of being flooded. The C. P. R. report states that between 15,000 and 20,000 acres of seeded land has been seriously affected.

WEDNESDAY, MAY 17th.

A WORD TO THE GOOD CITIZEN

No doubt you have been a good citizen this spring and have cleaned up the premises surrounding your home, in fact a casual walk around the town with a little observation shows that this is so in nearly all cases.

Now there's another little thing that you might take an interest in seeing that the town laddies are becoming grey hair'd over trying to keep down the tax rate in your behalf. Take a hammer and a few nails and fix those few loose boards in the walk fronting your property, or even ask the town to supply you with a few new boards when they are needed and put them down yourself. We can have some people giving us the "hoarse" laugh over this suggestion. However, one hide fairly thick and this won't hurt us. But if this suggestion is carried out by us all it will help to lighten the burden of taxation, make our walks safe to walk on and improve the town generally, and a few nails and a hammer with a little exertion on your part will be good exercise for you. Oh, Yes! the crossings. Why not follow out a neighborhood plan and get your neighbors interested in fixing up the broken-down, dangerous connections and make them fit for women and children to cross on? All it needs is one or two enthusiastic men living near each street intersection to tell this matter over with their neighbors and form some plan which will allow the work to be done in the evenings by all working together.

This may sound as though the town is bankrupt, which is very far from the truth. But it is a fact that we should all put our shoulders to the wheel this season to fix up the little things because the Council are trying in every way to keep down expenses until times become more settled and finances become easier.

No doubt the Council will make it as easy as they can for the ratepayers who are public spirited enough to undertake this work by supplying necessary materials where absolutely needed.

Just think this over then get busy.

FAREWELL SURPRISE PARTY

Mr. and Mrs. Clay Freeman and family were pleasantly surprised on Friday evening by a gathering of friends and neighbors in the form of a farewell party.

Progressive whist was played until midnight when a very satisfying lunch was served after which Mr. Welsh, on behalf of those present extended their heartiest and best wishes for a pleasant and prosperous future and expressed their regret at losing them as neighbors. However there was satisfaction.

LOST—One pinto horse mare and one grey 3 year old colt, two bay two year olds. All branded B on right thigh. HALENIE BROS., Elton P.O.

in the fact that they will still be within visiting distance and the matter of a few miles is a small consideration where real friendship exists.

Mr. Welsh then presented the hostess with a beautiful silver berry spoon as a slight expression of the appreciation in which they were held. Mrs. Freeman feelingly responded and the company left taking the kindest of wishes with them and invitations to visit the family in their new home, while they

were assured of the warmest hospitality on their return here.

ANNOUNCEMENT

Dr. R. P. Doherty announces that he has taken over the dental office and practice of Dr. W. Duncan, Didsbury, and will continue to give all the best in dental service. Dr. Doherty will be at the office from 9 a.m. to 5 p.m. every day except Sunday and will appreciate being of service to you.

Governmet Cream Grading Starts

Elimination of the cream buying and grading stations, and the inauguration of the system of government grading which came into being last Tuesday, has had it's immediate result in the announcement of an increase of five cents per pound paid to the farmers for cream. This announcement was made by E. T. Love secretary of the Alberta Dairymen's Association, who said that the new high price was being paid by all creameries in Alberta.

Inauguration of Government grading of cream has placed cream grading on such a basis of certainty that the dairies and creameries now feel justified in fixing immediately a premium for high grade cream, high enough to make a substantial inducement for farmers to produce the highest grade. Hitherto, with the grading of cream a great uncertainty, this differential price between grades was kept so close as to offer little inducement. Now another five

cents has been added to this differential and the producer of cream finds himself faced immediately, as a result of the operation of the new system, with a factor that gives him the greatest encouragement to produce the very highest grade of cream his herd and his equipment is capable of producing.

Over thirty Government graders were at their posts in different parts of the Province last week, entering enthusiastically into the spirit of the new movement calculated to set the dairying industry back upon its feet.

Before being sent to their posts, the Government graders underwent a short course of instruction under the directorship of C. P. Marker, dairy commissioner, at the University at Edmonton. At the last session of this short course the graders, as well as representatives of creameries, were addressed by officials of the Department of Agriculture on the importance of their duties. Hon. Geo. Hoadley, H. A. Craig and Mr. Parker all emphasized the fact that the Department was look-

ing to the new system of grading and marketing of cream to bring about a revival of the dairy industry in the province and to put it upon a basis that would eventually bring it to the stage of the most important branch of agriculture, and in addition recover markets which Alberta butter formerly had held.

The particular function of these graders will be to grade the cream delivered at the creameries. They will have nothing to do with setting the price for cream, nor will they act in any way as an arbitrator between the creameries and the farmers.

The Dairy Commissioner, Mr. Marker, has expressed the opinion that the new system will bring the production of high quality cream back to where it was in 1919, in one year, and in two or three put the industry upon a more satisfactory basis than it has ever known in the province.

The new system of Government grading of cream is the first to be inaugurated in the history of Canada, and, so far as is known, in any other country.

Premier Greenfield Reports on Natural Resources Question

Premier Greenfield issued an official statement on Tuesday regarding the negotiations re the natural resources of Alberta with the Dominion Government.

The report cannot be given in full here but the main trouble it seems is as to whether consideration should be given to alienations or dealings with the natural resources prior to 1905. 16,969,085 acres were alienated prior to 1905. Of this amount 6,110,000 were granted for railway construction entirely outside the province. The premier states that any negotiations for the return of the resources should not be limited to the period since 1905.

Premier Greenfield also warns the public against an exaggerated idea of the revenue to be derived from the resources when the province receives them as during an average year the profit is only slightly higher than the province is already receiving subsidies.

SUMMER SCHOOL FOR TEACHERS

Plans are now practically complete for the summer school for teachers to be held at the University at Edmonton from July 3rd, to August 12th, under the auspices of the Department of Education. Transportation costs will be refunded to teachers under the usual conditions. Courses to be given include Elementary Science, High School Science, Household Economics, Industrial Arts and Art Primary Work, Physical Education, Music, courses for British and American teachers, courses for first class certificates, special courses, university subjects leading to B. A. or B. Sc. degree. Courses will be based on the new elementary school curriculum.

The Wall of China

In 214 B. C. the Chinese commenced building the Great Wall, which isolated their country from the rest of the world and helped retard their national progress.

The business man who maintains a wall of "dignified reserve" towards the buying public is just as surely retarding his own business growth.

People like to buy from the store that shows its appreciation of their business, gives good value, and courteous, kindly service, with a "come again" invitation.

Your advertisement in

would be a standing invitation to your store. When our readers open up their paper do they see your "bid"?

The Wise Shop Where They Are Invited

Genoa Conference Postponed

GENOA, May 15th.—The economic conference being held at Genoa will likely be postponed until June 15th at the Hague to discuss Russian affairs according to plans made on Sunday afternoon. This decision was prompted largely by the desire to have the U. S. assist the conference in coming to some decision regarding Russia and was suggested by Lloyd-George. France has appealed to the U. S. to participate and that government has the matter under consideration.

U. S. REFUSES TO ACT

WASHINGTON, May 16th.—A communication issued by the State department states that the government is unable to conclude that it can helpfully participate in the economic conference at the Hague on June 15th and declines the invitation to attend.

H. S. Notes

The End of a Perfect Day. Literature—"is a lovely thing. Beloved from pole to pole. To old Hawthorne may praise be given. He sent these gentle words of his:

What slid into my soul.

The high school doors are opened wide.

The children are therein. The teachers met, the kids are set.

Let's hear the fun begin.

They hold us with their glittering eyes.

And I am the quothe, quothe he

As he points around with skinny hand.

"Stay in stay in for me."

They all had left save Thomas Reed.

Alone, alone he sat,

And wished with all his heart and soul.

That he were out of that.

None, alone, all, all, alone,

As if on a wide, wide sea,

And never that teacher took pity on

Tom's soul in agony.

The many kids so h artiful—

And they they were all gone,

And still poor boy alone he sat.

Sat on, and on, and on,

At last the stern young teacher rose.

Said, "Tom no longer stay."

And thus closed up for Thomas Reed.

The End of a Perfect Day.

If your business is not worth advertising, advertise it for sale.

The fourth annual convention of the Farm Young People will be held at the University, Edmonton, between June 7 and 13. Young people of the farm, from the ages of 16 and 25, are invited to attend this convention, where lectures of interest will be given.

Two-thirds of the excavation work on the Lethbridge Northern Irrigation ditch has been completed. About 1400 men and 800 teams are now at work along the whole project pushing it to completion.

gather before that date to try and find some amicable way to settle the trouble.

Mr. T. H. White and son Bob left on Thursday last for Bris-

bane, Australia, on the steamer Niagara, where they will make their home for the future with other relatives. A surprise party of about fifty friends gave them a send off on Wednesday night last.

Mr. H. White and son Bob left on Thursday last for Bris-

bane, Australia, on the steamer Niagara, where they will make their home for the future with other relatives. A surprise party of about fifty friends gave them a send off on Wednesday night last.

The Poyden brothers gave the visitors a right royal reception with a touch at the end.

The matron of the hospital wishes to acknowledge the following donations:—Mrs. Trebilbank; Mrs. McDonald, cream; Mr. Sick, eggs; Mrs. McCourt; Mrs. J. Sick, eggs; St. Elie W. L. sheets, pillow slips and bath towels.

King Hiram Lodge, A. F. and A. M., will celebrate on Tuesday night by holding a Past Masters night, the first ever held in Didsbury. Past Masters of the Lodge will fill all positions during the evening. It is expected that no less than eleven P. M.'s will be present, some of them coming from a distance to especially attend this meeting. All members are requested to be present.

The Didsbury Trail Rangers half ball team paid a visit to Olds on Monday. The game which was the first of the season, was rather slow but Olds will be overcome with a little practice. Olds managed to score a four run lead on the leads in the first four innings, in the seventh inning the score rose to 8-8 and in the ninth to 9-9 and an extra inning was played in which Didsbury composed of four runs which gave them the game with a score of 13-9.

In a return game here the other night the Olds boys won the game 3-2.
